GAINESVILLE, FLORIDA, THURSDAY, FEBRUARY 4, 1909

TEN CENTS A WEEK

OPENING STATE FAIR WAS A GRAND SUCCESS

Alachua and Thirteen Other Counties Have Good Exhibits---Col. Bryan on the Ground.

TAMPA, Fla., Feb. 3.—The fifth annual Florida State Fair opened Wednesday of this week, with every assurance of the greatest success yet attained by these annual expositions. The exhibits are superior to those of former fairs in quantity, quality and attractiveness, and, although it was expected at the outset that there would be some difficulty in securing exhibits, the exhibit buildings are taxed to their capacity and the display of Florida products is unquestionably the best ever made.

Fourteen counties have county exhibits, as follows, in charge of the gentlemen named:

Washington, Collier Bros.; Columbia, T. J. Appleyard; Gadsden, W. M. Corry; Alachua, J. W. Tench; Marion, Mr. Carnes; Hernando, W. L. Fleming; and W. S. Hancock; Pasco, W. E. Embury; Manatee, F. C. Armstrong; Hillsborough, T. M. Wier; Polk, Hugh Wear; DeSoto, Ed. Scott; Lee, W. Stanley Hanson and J. L. Cutler; Dade, B. B. Tatam and J. C. Balle; Osceola, W. L. Van Duzer.

The poultry and livestock exhibits are larger and better than ever. The citrus fruit display is fully 100 per cent greater, and of much higher quality than that of last year.

The fair was formally opened on Wednesday by Governor Albert W. Gilchrist, who was under escort of the Florida State Troops. A big opening parade moved from the grounds through the principal streets at 9 a. m., in which was included the military and civic organizations, officials of State, city and county, the 50 shows which constitute the Range and the 500 race horses which will participate in the race meeting which is to continue throughout the fair.

Hon. William Jennings Bryan has

arrived at Tampa and signal honor is being shown him. Thousands of visitors are here to participate in the various events of Bryan Day. The railroad and steamboat lines are offering unusually low rates to Tampa for the fair, and the attendance is expected, like all other features, to be a record-breaker.

Next week's program at the fair is of wide interest. Monday, February 8, will be Naval Stores and Lumbermen's Day, with a meeting of representatives of these industries at 10 a. m., to discuss matters pertinent to their enterprises. At 8 p. m., Monday, an illuminated parade of the Range attractions will occur, followed by a confetti battle. Tuesday—will be South Florida Day, with speeches by leading citizens of South Florida in the main building at 11 a. m. A balloon ascension will occur at 5 p. m. Wednesday will be Jacksonville Day, and will also be marked by the State Convention of retail hardware men, to meet at the Tampa Bay Hotel at 10 a. m. Thursday Greater Tampa Day will be signaled by a civic parade, in which Tampa will "do itself proud." The Tampa Bay handicap will be run in the afternoon and, at special exercises at 1 p. m., prominent Tampanians will make addresses. Friday, Lincoln's Birthday, will have a special program, and the field day sports for the high schools of the State will occur. The judging of the educational exhibits will also take place on this date. Saturday will be Georgia-Alabama Day, and monster excursions from these States will bring thousands of people to the fair.

As advertising finds the best market for everything else, why not for your personal services?

Gave Bond for Appearance.

The Pollies, who were arrested on Tuesday, waived examination yesterday and gave bond for their appearance at the next term of circuit court, when the case will be heard on a charge of slander.

Marriage at Alachua.

Mr. Henry Roberts, a prominent young man of Dunnellon, and Miss Barney Fincher of Alachua were happily married at the home of the bride's parents at Alachua on Wednesday. The couple left shortly afterwards for their future home at Dunnellon.

Senator Tillman Shows Crum to Be Unacceptable

WASHINGTON, Feb. 3.—The nomination of Dr. W. D. Crum to be collector of customs of Charleston, S. C., was before the Senate in executive session yesterday for more than four hours, at the end of which time no substantial progress had been made toward confirmation. After Senator Tillman had taken the floor, he called for a quorum and after the roll call he announced that he proposed to see that a quorum was maintained throughout the day.

The Vice-President called his attention to a ruling made in the last hours of the last session of Congress to the effect that business must not intervene between calls for a quorum and that a speech would not be regarded as "business." This announcement provoked a discussion of the rule, but throughout the afternoon no occasion arose to call forth a ruling on that question.

Mr. Tillman had received communi-

cations from various commercial bodies of Charleston in opposing the confirmation of the Crum nomination and read them to prove that his protest against Crum fully represented the popular sentiment in Charleston.

The Japanese and Chinese questions now causing discussion on the Pacific Coast were referred to, and Mr. Bacon (Georgia) made a general inquiry of the Pacific Coast Senators as to their attitude toward any proposition to appoint a Chinaman as collector of customs of San Francisco.

There was a very general discussion of the race problem, in which several of the Senators on the Democratic side took part. Senator Money occupied nearly an hour and reviewed the history of the races.

About fifty Senators remained in the chamber throughout the session. The nomination will come up tomorrow, and Mr. Tillman, it is expected, will continue his remarks.

BETRAYAL OF WOMAN CAUSED HIS DEATH

GAINESVILLE, Texas, Feb. 3.—Using an automatic revolver, Miss Veruna Ware, daughter of a prominent farmer of this county, fired into a crowded court room here yesterday, continuing until her weapon was emptied and as a result John Hanes, a merchant of Jonesboro, for whom the bullets were intended, is dead; two bystanders, James Smith and David Ross are believed to be mortally wounded and A. P. Wiley, Jr., also a disinterested party, is seriously wounded.

It was during the conclusion of the case on trial in the district court that the shooting occurred. Miss Ware, as complainant and Hanes as defendant in a case of seduction, the former in an ante-room and the latter in the court room, were awaiting the calling of court. Approaching a window from which a view of the court room could be had, Miss Ware saw Hanes among the spectators and before she could be restrained drew the revolver from the folds of her dress and opened fire.

Three of the bullets went true to the intended mark, inflicting wounds in Hanes' back and arms from which he died within an hour. Smith was shot in the head and Ross was wounded in the back and arm. Wiley received a bullet in his leg. Miss Ware and her brother, Charles Ware, were arrested.

HAWTHORN.

HAWTHORN, Feb. 3.—The recent arrivals at Moore's Hotel are Mr. and Mrs. J. H. Libby and Mr. George A. Flack of Cleveland, Ohio.

Mr. and Mrs. R. T. Hollaway and daughters, Misses Anna and Roberta, left yesterday for Naples.

Dr. and Mrs. John D. Tripp of Auburn, N. J., will go to Largo Monday to join some friends from their home in New York.

A. H. Carter, wife and Miss Marion, Master Donald, and Mr. and Mrs. Beem of Lebanon, N. H., and Mr. and Mrs. Henry Blakeman of Connecticut, have engaged rooms at Moore's Hotel and will arrive Monday.

The sportsmen continue to bring in good bags of quail and duck.

Hugh J. Fowler, a highly respected citizen who lives some few miles northeast of Hawthorn, is very ill.

L. W. Fennell, ex-sheriff of this county, has moved back to his farm and orange grove and is making many improvements. His friends in the East End are pleased to see him among them again.

T. J. Hammond has purchased the R. M. Weeks dwelling house and lot on Main street and will erect a nice dwelling on the north part of the lot.

Mr. Callaway has succeeded J. R. Chauncy as agent for the Seaboard Air Line Railway Company here. His wife and little son have gone to Tampa on a visit.

The people of this section are waiting for a special excursion to attend the Mid-Winter Fair at Jacksonville. A large number would gladly accept such an opportunity.

ARCHER NEWS.

ARCHER, Feb. 3.—Miss Minnie Heyman is visiting relatives in Savannah this week.

Rev. Hilton and family of Hampton have moved to our town and are located in one of the Fleming cottages.

Mrs. C. W. Bauknight is visiting her daughter, Mrs. J. H. Tucker, in Jacksonville.

Mrs. George Fleming and children have returned home after a pleasant visit to Jacksonville.

Miss Essie Smith is spending several weeks with her parents in Micahopy.

Mrs. Groves of Montbrook is visiting her daughter, Mrs. H. Maddox.

Mr. and Mrs. Robert Heagy entertained a party of young people Friday evening. A very pleasant evening was spent with games and music. De-

JUDGE EXCUSED JUROR FOR HIM TO MARRY GIRL

Work of Securing Jury in Cooper Trial at Nashville Progresses Very Slowly.

NASHVILLE, Tenn., Feb. 3.—The second week of the trial of Col. Duncan B. Cooper, Robin J. Cooper and John D. Sharpe was completed yesterday and the jury box remains unfilled. The day's proceedings were wearisome and fruitless, not one of the vacant seats in the box being filled. Altogether 162 talesmen were examined. The very few who attempted to qualify were challenged peremptorily by State or defense. It is not improbable that the fourth venire of 500 men will be exhausted tomorrow, in which event the fifth will be drawn and summoned and the hearing of the charges against Juror J. M. Whitworth will be resumed.

Judge Anderson of the defense arose to a question of personal privilege as soon as the sheriff declared the court in session.

"I object to a head-line in a morning paper, The Tennessean, which says that 'defense attacks character of Juror Whitworth and claim he perjured himself.'"

"Now this is false. We did not examine Mr. Whitworth at all, and if we had, he might have said that he expressed an opinion. The story itself as written is correct, but the headline is cruel and misleading and we ask for redress."

The court made no comment on the statement of counsel, but said:

"It seems to me that we have a large venire—500 men—and that many of them have come miles to be examined. I suggest, therefore, that

we postpone further inquiry into the Whitworth matter until we examine this venire."

Excused to Get Married.

John W. Holt, one of the talesmen, accompanied by a buxom woman, approached the bench. Holt said:

"Judge, I got an engagement to get married at 10 o'clock and a jury summons for 10. What am I going to do?"

"Serve on the jury," said the court. "Well, fudge, I sure am embarrassed. I have been trying to get this girl to marry me for a long time and I feel I ought to go through with it now. It's dangerous to put it off."

The court teased the prospective juror a while, then excused him.

"In six months he may wish I had kept him on that jury," commented the court.

The first talesman called was A. E. Greer, who said he could not read, but his wife could; that he lived two miles from his brother, but had not seen him in three years. Asked if his wife was not pretty talkative he replied:

"You jest com out and listn to her."

Greer was sure there was a killing, but he was not sure who was killed or who did the killing.

Although he seemed to be an ideal juror, Greer was challenged by the defense.

After many lengthy arguments over the competency of jurors, 162 were excused and the court adjourned for the day. No additions had been made to the jury.

Repairing East Main Street.

The street force is now busily engaged in repairing East Main street, in front of the fire station, which has long been needed. This work was ordered done by the council, but the hands have been so busy in other sections that they are just now being placed there.

Osborn and His Divorced Wife Will Make New Start

PHILADELPHIA, Feb. 3.—Miss Helen Maloney of this city and Arthur Herbert Osborn of New York were married yesterday by Rev. Stephen M. Lyons at St. Catherine's Roman Catholic church, Spring Lake, N. J.

The marriage marks the culmination of a chapter of what may properly be termed an international romance. It began in October, 1907, when the social world was startled by the announcement that Miss Helen Maloney had eloped from her father's palatial summer home at Spring Lake with Samuel R. Clarkson of London who had been a guest at the home of Martin Maloney, who is one of the wealthiest men of this city and prominent socially.

Mr. Maloney finally located the young couple in Europe and brought his daughter back home.

In the meantime the discovery was made that Miss Maloney had gone through a marriage ceremony with Arthur Herbert Osborn of New York

who was then a student at Princeton University.

All of this made a newspaper sensation when it became known but the Maloney family maintained silence. It was known, however, that Mr. Maloney, who has been highly honored by Pope Leo XIII, who conferred upon him the title of marquis, took up the question of the annulment of the marriage both at Rome and at the archdiocese of the Catholic church in this city. Finally in the New York courts, annulment of the marriage was granted on the ground that they had never lived together. Miss Osborn was a witness in her own behalf. Mr. Osborn putting up only a passive defense. Miss Maloney testified that she never considered that the marriage joined her and Mr. Osborn together as man and wife, and that she went through the ceremony as a precautionary measure to save herself from the attentions of titled foreigners who were regarded favorably by her parents.

Eva Ray Tonight.

The most novel attraction of the season comes to the Baird Theatre tonight, when Miss Eva Ray and Company open a three-nights' engagement here. The work of Miss Ray is said to be great, and her audiences are mystified in the extreme at the clever performance.

Of Miss Ray's accomplishments The Jacksonville Metropolis of January 26th says:

"Eva Ray has certainly made good. She is indeed a wonder.

"She opened a week's engagement at the Orpheum Theatre last night to a big audience, and when the crowd left the theatre they were mystified. They had seen things accomplished that are not believed unless seen. 'How did she do it?' was the question on the lip of everyone of the great crowd that left the theatre after the first performance of this wonderful woman.

"The early portion of the program is almost as marvelous as the second, when her mind reading took the crowd off their feet, so sensational and correct were her answers to the various questions asked.

"During the cabinet work a committee of prominent citizens were seated on the stage, and there were none in the audience more mystified than this committee after she had done her work.

"It is during part two that Miss Ray carries the audience by storm, and sends them from the theatre amazed at what they have seen and heard. In this part Miss Ray represents Somnolency, an exhibition of mind reading and telepathy power while in a hypnotic condition.

"The audience is requested to write questions on a slip of paper, with their

AFTER DOCTORS FAILED

Lydia E. Pinkham's Vegetable Compound Cured Her.

Willimantic, Conn.—"For five years I suffered untold agony from female troubles, causing backache, irregularities, dizziness and nervous prostration. It was impossible for me to

walk upstairs without stopping on the way. I tried three different doctors and each told me something different. I received no benefit from any of them, but seemed to suffer more. The last doctor said nothing would restore my health. I began taking Lydia E. Pinkham's Vegetable Compound to see what it would do, and I am restored to my natural health."—Mrs. ETTA DONOVAN, Box 299, Willimantic, Conn.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration.

For thirty years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills, and suffering women owe it to themselves to at least give this medicine a trial. Proof is abundant that it has cured thousands of others, and why should it not cure you?

initials or full name signed to the question. This slip of paper is held by the writer only, and not seen by anyone else, no one connected with the theatre or company knowing who has written the question or in what section of the theatre the one desiring the answer is sitting. While under the hypnotic spell the names of the writers of the questions seems to flow through Miss Ray's mind, and she calls the names, and correct names, too, of the question writers, and last night she answered probably 100 questions while the writers of the same looked on with wonderment. This work must be seen to be appreciated. The best way to describe her work is to say that it is simply marvelous, the like of which has never before been seen in this city.

Reserved seat tickets are on sale at Miller's today. Prices, 25, 35 and 50 cents.

An Explanation.

I have been asked by so many people why we put off the performance of "Alabama," I feel called upon to make an explanation: The caste had been selected carefully and, as I thought, to the best advantage, and each member had expressed a willingness to do all possible to make it a success, but after much consideration I found we could not give it the attention necessary during the busy season, so decided to take up something we could handle easier. I thought of "The Late Mr. Jones" and while a drama would probably please many, I am sure our next comedy will give satisfaction to all who honor us with their attendance. However, "Alabama" will not be thrown aside, and after the Lenten season we will be ready with special scenery and effects to astonish you with a city production.

THEO HUDGINS.

Electric Theatre.

The moving pictures now being seen at the Electric Theatre have, as the original actors, the best talent to be found on the legitimate stage. At ordinary plays shown at theatres you will often feel disappointed at the actors who attempt to fill the various parts, but with these pictures it is different, for each person is an acknowledged artist in his or her line, therefore you see the best, the only difference being that there is no conversation heard, and this will be obviated as soon as Wizard Edison completes his new machine.

Don't think that piles can't be cured. Thousands of obstinate cases have been cured by Doan's Ointment. 50 cents at any drug store.

WEDNESDAY'S U. S. COURT.

Two Cases Disposed of by This Tribunal Yesterday.

The third day's session of the United States Court was held yesterday, and more progress was made than on the previous days, as the body has now got down to work.

In the afternoon Rena Harris, a negro woman who had written an obscene letter and sent it through the mails, was up on the charge of sending "obscene statements through mails." She was tried by jury and found guilty, but the judge gave her a severe lecture and let her off with a small fine.

Cuff Salit, the negro charged with robbing the postoffice at Santa Fe, had the attention of the court in the afternoon. The jury brought in a verdict of not guilty.

Wound Up Their Business.

The county commissioners, who have been in session for the past two days, finished their labors yesterday and departed for their homes.

MI-O-NA

RELIEVES STOMACH MISERY ALMOST IMMEDIATELY.

If the food you ate at your last meal did not digest, but laid for a long time like lead in your stomach, then you have indigestion and quick action should be taken.

Of course there are many other symptoms of indigestion, such as belching up of sour food, heartburn, lizziness, shortness of breath and foul breath, and if you have any of them, your stomach is out of order and should be corrected. Mi-o-na tablets have cured thousands of cases of indigestion and stomach trouble. If you have any stomach distress Mi-o-na will relieve instantly.

But Mi-o-na unlike most so-called dyspepsia remedies, does more than relieve; it permanently cures dyspepsia or any stomach trouble by putting energy and strength into the walls of the stomach, where the gastric juices are produced.

A large box of Mi-o-na tablets costs but 50 cents at J. W. McCollum & Co's. and are guaranteed to cure or money back. When others fail, Mi-o-na cures. It is a producer of flesh when the body is thin; it cleanses the stomach and bowels; purifies the blood and makes rich red blood.

TOY PISTOL CAUSES PAIN TO M'CAA HAILE

FIRE TOY IN PANTS POCKET
AND CLOTHES CAUGHT.

Severely Burned About Hands and
Legs, But No Serious Results Are
Anticipated from Injuries.

Little McCaa Haile, the youngest child of Mr. and Mrs. J. M. Haile, happened to rather a painful and disagreeable accident on Wednesday morning by being badly burned.

The cause of the accident was a little toy cap pistol which the lad thought a great deal of and which he had been using a good deal lately in playing around his home on West Church street.

He had loaded his pistol and placed it in his pocket, forgetting the fact that he had done so, and, child-like, cocked and pulled the trigger, which caused the sparks to set fire to his clothing and he was badly burned before the flames were finally extinguished.

His hands and legs were severely burned from the fire of the clothing, and it will be several days before the little man will be himself among his playmates again. While nothing serious is reported concerning the wound it is thought that he will be confined to his home for some time to come.

JUDGE MASON HAS A BUSY DAY WEDNESDAY

THREE CASES BEFORE HIM CONSUMED ENTIRE DAY.

Will English, the Waldo Negro Boy, Bound Over on Charge of Manslaughter—Other Cases.

Wednesday's session of Judge Mason's court was the busiest in some time, as he was occupied nearly all of the day with three different cases.

Henry Mickens, the negro boy who stole a wheel from J. L. Chesser and skipped out to Ocala, was called up and plead guilty to the charge. The judge reserved his decision and may decide to send him to the State reformatory, owing to his age.

Will English, the Waldo negro who shot his playmate, was held for the grand jury on the charge of manslaughter. He furnished the required bond.

The case of Brockington and others, as trustees for the Bethlehem Methodist church, vs. Wm. McCray, was called for trial. The defendant confessed judgment. The State's interests were looked after by State Attorney Rivers and McCray was represented by Col. Sanchez.

For Marshal.

To the Voters of the City of Gainesville:

I am a candidate for City Marshal, for re-election on April 13. I have served the people faithfully and efficiently, night and day, and my record is open for inspection.

If my service during the past year has been satisfactory I ask the support and vote of each and every citizen who is qualified. I can only promise the same service as I have endeavored to give in the past.

Yours for order,
BEN T. ARNOW.

For City Marshal.

I respectfully announce myself a candidate for the office of City Marshal, to be voted for at the election on April 13, 1909. If elected I will faithfully discharge the duties of the office without fear or favor. I respectfully solicit the votes of all, irrespective of party affiliation.

"The Fire Company Arrived Too Late to Save the House"

Is a familiar item in the newspapers. This should be a warning to those who have procrastinated not to take out a policy when it is too late, so that the item may read in your case: "The loss was fully covered by insurance in one of the best companies."

CABBAGE "BUZZARDS" ARE NOW ASSEMBLING

FOUR OR FIVE NORTHERN REPRESENTATIVES ARE HERE.

Nothing Doing for Them Just at the Present Time, Owing to the Cold Snap.

The cabbage "buzzards," or commission representatives from Northern houses, have commenced to arrive in this city and section looking for the power that sells at home, as well as those who ship on consignment.

Already there are about four of these special representatives in Gainesville, while they are scattered all along the lines of the roads from here south, but owing to the cold snap this particular vegetable is not moving with the activity it had before the cold.

While many of the growers were selling at \$1.25 before the cold they could not buy at near that price now, and what goods are left are sure to bring good prices. The fact that these representatives are here indicates that the markets are pretty well cleaned up in the Northern section.

BEVILLE MARRIED MANY MONTHS

Event Occurred at Savannah, Ga., Early in June.

The many friends of B. P. Beville will learn with much surprise of his marriage, which event occurred in June of the past year, at Savannah, Ga., when it was supposed that both he and his lady friend had gone to the East Coast on a short visit.

The lady was formerly Mrs. Susie Ballard, who has been a resident of Gainesville for the past several months, and for quite a while lived at the residence of A. E. Davies, but she is now with her sister, Mrs. Temple, and together they are keeping house.

So well has Mr. Beville guarded his secret that his most intimate friends were unaware of it, and no one of his family were acquainted of the facts until told so by himself on Tuesday evening.

Rumor has on several occasions had him married, but he informed the reporter on Wednesday that he wanted to surprise the people generally, and in this he has succeeded, for the manner in which he told us was at first doubted until he came out and mentioned the time and place that the wedding occurred.

The City Council.

The City Council convened in regular monthly session last night, when the usual monthly bills and other matters came before them. Several special matters came up and proceedings will appear in full tomorrow.

NEWS FROM ALL PARTS OF FLORIDA

The next meeting of the State Board of Pardons will be held in Tallahassee Thursday, February 11th.

Petit thieves in Jacksonville have gotten down to stealing milk bottles. What will they get after next?

A park is proposed for Palatka, situated in what is known locally as the "Hammock," in the south end of the city.

Bank clearings were greater in Jacksonville for the month of January just past than ever before in the history of the city.

Great preparations are being made in Lakeland for the coming of William J. Bryan. Professional decorators have been employed to decorate the principal streets of the town.

S. M. Nash, a Syrian merchant of Palatka, has been arrested in Tallahassee charged with swindling. His place of business was searched at Palatka and not over \$200 worth of goods found. He has operated extensively in ordering and having the goods re-shipped elsewhere.

Reports from all over the Southern part of the State are to the effect that the orange crop has not been injured by the late cold wave. Even as far south as Tampa, where the thermometer registered 26 degrees, there was not the slightest indication that the trees were damaged in any way.

William Jennings Bryan has consented to deliver one of his famous lectures next Sunday night at the Duval Theatre in Jacksonville. He will doubtless be heard by many of the State who will make a special effort to be there. The lecture is to be given under the auspices of the Ministerial Alliance, and his subject will be "The Price of Peace."

In the case of the city of Jacksonville vs. the Southern Bell Telephone Company a decision was rendered Tuesday by Judge Call in favor of the company. It was a case where the company had raised the rates on 'phones \$1 per month and the council passed a special ordinance against the increase. Residence 'phones now cost Jacksonville people \$2 and business 'phones \$4 per month.

Mrs. M. Graudy of Sanford had a narrow escape from burning to death Monday. She was passing an open fire-place when her skirt became ignited and the flames rapidly spread all over her. Her screams attracted the attention of a couple of gentlemen, who rushed to her assistance, but not until she had been severely burned about the head and body. She was a well-to-do dressmaker of that place and well-liked by the entire community, having resided there for a number of years.

The first shipment of steel to go from Pensacola in more than two years to a foreign country, was carried out Saturday by the Italian steamer "Feit," to Genoa, when she sailed for that port with 224,000 pounds of steel billets shipped from the Birmingham district. It is stated that this cargo is to be followed by others in the near future, and that the exporting of pig iron is also to be resumed by the Birmingham shippers, who formerly did an immense business with foreign countries through that port.

CAUSE FOR ALARM

Loss of Appetite or Distress After Eating a Symptom That Should Not Be Disregarded.

Appetite is just a natural desire for food. Loss of appetite or stomach distress after eating indicate indigestion or dyspepsia. Over-eating is a habit very dangerous to a person's good general health, and insatiable appetite is a sure symptom of diabetes.

It is not what you eat but what you digest and assimilate that does you good. Some of the strongest, healthiest and healthiest persons are moderate eaters.

There is nothing that will create sickness or cause more trouble than a disordered stomach, and many people daily contract serious maladies simply through disregard or abuse of the stomach.

We urge everyone in Gainesville who is suffering from any stomach derangement, indigestion or dyspepsia, whether acute or chronic, to try Rexall Tablets, with the distinct understanding that we will refund their money without question or formality, if after reasonable use of this medicine, they are not perfectly satisfied with the results. We recommend them to our customers every day, and have yet to hear of anyone who has not been benefited by them. We honestly believe them to be without equal. They are made from the prescription of a physician who devoted all his time to the study and treatment of stomach troubles. They give very prompt relief, neutralize the gastric juices, strengthen the digestive organs, create good digestion and assimilation, naturally regulate the bowels, promote perfect nutrition, and create a permanent cure of all unhealthy symptoms.

We urge you to try a 25c box of Rexall Dyspepsia Tablets, which gives 15 days treatment. At the end of that time, your money will be returned to you if you are not satisfied. Of course, in chronic cases length of treatment varies. For such cases, we have two larger sizes, which sell for 45c and 89c. J. W. McCollum & Co., corner East Main and Union streets.

An Anecdote of Renan.
Renan while traveling alighted at Naples. One morning a servant of the hotel came to him and said that as she had heard the preacher at the cathedral make use of his name many times she would be thankful if he would choose for her a number in the lottery about to be drawn. "If you are a saint," said she, "the number is sure to be a good one; if you are a devil, it will be still better." Renan smiled and chose a number, but he never knew if the servant was lucky.

Tangible Asset.

"Land or water?"
"The latter, I think. For the former I'd need rails and right of way, but in a water proposition I'll have an ocean to start with."—Exchange.

REAL LITERARY LABOR.

Example of Charles Dudley Warner's Infinite Painstaking.

The extraordinary pains and patience with which Charles Dudley Warner did his literary work are shown in an account given by a writer in the New Amstel magazine of the strenuous way in which Mr. Warner produced an obituary notice some years ago.

Professor Edward L. Youmans was a close personal friend of Mr. Warner, and on that account when Mrs. Youmans died the editor of a daily paper asked Mr. Warner to write a sort of personal appreciation of her. This he consented to do.

He was left alone from 10 a. m. until half past 12, when he went to lunch. Returning at 2 o'clock, he worked without interruption until 4 o'clock, when he turned over to the editor what he had written.

Yet the work was not complete. Mr. Warner read the first proof and in succession three revised sheets.

Each time he made change after change in phraseology, seeking out the one right word, while even in the nicety of paragraphing he seemed to make clearer what he desired to express. Nor did the close revision end with the marking of the last proof.

After the paper had gone to press and the first sheets had been brought up to the composing room for an O. K. Mr. Warner looked wistfully at the editor and observed:

"Would you object to lifting the form? I see a sentence in the last paragraph that might be somewhat changed. She was too good, you know, to have a slovenly tribute paid to her."

Even the printer refused to get angry over the delay, and forthwith the form was sent up and changes went on for an hour. At last, though publication was delayed fully two hours, the editor, but not Mr. Warner, had the supreme satisfaction of knowing that the work was as nearly perfect as human art could make it, and the edition was sent out.

TO CURE ANY DISEASE.
The Cause Must be Removed, Same Way With Dandruff.

Kill the germ that causes dandruff, falling hair and baldness, you will have no more dandruff, and your hair must grow luxuriantly. Newbro's Herpicide not only contains the dandruff germ destroyer, but it is also a most delightful hair dressing for regular toilet use. No other hair preparation is on this scientific basis of destroying the dandruff germs. It stops all irritation, keeps the scalp sweet, pure and wholesome. Remember that something claimed to be "just as good," will not do the work of genuine Herpicide. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

S.S.S. REMOVES THE CAUSE OF CATARRH

No remedy that does not entirely remove the cause of Catarrh from the blood will ever make a permanent cure of the trouble. Just as long as the circulation remains contaminated with the impurities and catarrhal matters which produce the trouble, the mucous membranes or inner linings of the body will be kept in a state of irritation and disease. Sprays, lotions and other local applications will sometimes temporarily relieve the tight, full feeling in the head, buzzing noises in the ears, uncomfortable, stuffy feeling of the nostrils, and help to loosen the mucus in the throat; but Catarrh is a constitutional blood disorder and until it has been entirely driven from the system there can be no permanent cure. S. S. S. cures Catarrh by removing the cause from the blood. It attacks the disease at its head and by thoroughly purifying and cleansing the circulation, and ridding it of every particle of impurity, and at the same time enriching the blood, allows the inflamed and irritated membranes to heal, improves the general health, and stops every disagreeable symptom. S. S. S. reaches down to the very bottom and leaves no trace of the disease in the system. Book on Catarrh and any medical advice free to all who write.

TELEPHONE TALKS

The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operated.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems, operating in various sections of the country, are uniform in their equipment and in their methods of operating.

Only by reason of this close traffic arrangement between the Bell Telephone companies is it possible to go to a Bell Telephone almost anywhere, ask for "Long Distance" and be put in communication with almost any point in the country.

This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.

The festival of Mardi Gras, while now a feast day observed by Christians in most of the countries where the Roman Catholic Church is largely represented is of pagan origin. It was adopted by the early Christians in celebration of "Shrove" or "Fat" Tuesday, which is the last Tuesday preceding the Lenten season. The holiday, which for the past ten years has been elaborately celebrated at Pensacola, Florida, occurs this year on February 23, but the festivities of the season will, as usual, begin at Pensacola on Monday, and continue until midnight Tuesday.

The English Society for Psychical Research has discovered that the soul weighs two ounces. We know men whose souls could turn a double somersault on the point of a pin and never be in danger of falling off.

No class of people will regret the parting of Mr. Roosevelt from the White House, says The Financial World, as much and as sincerely as the lawyers. He has done them more good than any President before him. For years he has provided fat jobs for them, some of which have made rich men. The lawyers of the Standard Oil Co., whose lawsuits have cost the company so far about \$4,000,000, have cause to be ever grateful to him. They will remember him until their dying hours, and bequeath his memory as a dear legacy to their heirs. The lawyers who have made money out of the several hundred cases which the administration has started against corporations have had the best business of their careers in the last few years. They may have to look the rest of their days for another Roosevelt, and ask themselves, in their easy hours, when his like will come again. Yet, what Mr. Roosevelt has done was a necessity. It required drastic measures to clean the Augean stable of rotten finance and crooked corporation life. The knife had to be applied to the corporative cancer, but the country was saved, while the lawyers in the meantime did a veritable land office business.

Mr. Taft is engaged on his farewell appearance as a globe trotter.

GEOLOGICAL WORK IN FLORIDA

The following excerpt is taken from the Press Bulletin of the report of the work of the United States Geological Survey:

"A general study of the geology and stratigraphy of Florida was begun in the autumn of 1907, and the field investigations were continued until the spring of 1908, the work being conducted by E. H. Sellards, State geologist, and Herman Gunter for the State Survey, and F. G. Clapp and George C. Matson for the Federal Survey. A study of the keys of the Southern portion of the peninsula was assigned to Samuel Sanford, who was then engaged in expert work for the Florida East Coast Railway. The earlier work of Dall and Vaughan on the faunal characteristics of the geologic subdivisions in Florida served as a basis for tracing the areal distribution of the various formations. The field work has resulted in increased knowledge of the distribution of formations which have hitherto been recognized in certain areas where conditions were especially favorable for collecting fossils. In addition some new formations have been discriminated and their distribution has been determined. Much interesting information has been obtained concerning the origin of the rock that forms the Southern end of the peninsula.

"An effort was made to determine the presence and depth of the water-bearing strata and the quantity and quality of water which they will supply, and a study was made of the decline in head of flowing wells where large quantities of water were being withdrawn for irrigation and municipal purposes. The results of the field studies in Florida will be embodied in reports by both the State and National surveys. One of the reports dealing with the underground waters of the central portion of the peninsula has just been published by the State Survey, and two other reports are in preparation, one dealing with the geology and stratigraphy, the other with the geology and underground waters. These reports will include discussions of the topography and structure and will be accompanied by geologic, topographic, and hydrologic maps."

CURRENT COMMENT.

The New York Post says: "We can see how a future historian may be led into speaking of Hay, Root, and Bacon as three of our most distinguished Secretaries of Agriculture."

The New York Times says: "The South has yet to experience what real railway facilities are like. Mr. Harri-man is a bogie man, but Georgia can hardly fear to suffer from him what it has suffered from the railway bail-lers. The South has a noble future if it will but invite instead of repelling capital."

The Mobile Register says: "The American Protective League has gone on notice as being unanimously opposed to the appointment of a permanent tariff commission. Economists who have given much study to the subject are in favor of the commission. Between the two there is the wide line that separates self-interest and a disinterested view of the subject. The league is satisfied with the abilities of the committee of Congress, in which the spirit of protection dominates. The country wants a commission that will revise the tariff and the underpinning of the trusts at the same time, and while the commission may not be obtained now, it is bound to come. The majority in Congress cannot afford to ignore public sentiment entirely."

The Wilmington (N. C.) Star says: "Governor-elect Brown of Georgia is going to return to the Jeffersonian simplicity in his inauguration. He is going to have no 'fuss and feathers' performances over his going into office. The Georgia militia colonels and other staff officers with their gold lace and brass buttons will be conspicuous by their absence. He says he is going to Atlanta on inauguration day in the way he has always gone when business called him there; that if the weather is good he will walk to the Capitol; otherwise he will ride in a street car. Reaching the executive office he will subscribe to the oath of office and 'start being the Governor of Georgia.' We like that kind of talk, and we hope Governor Brown will stick to his present resolution. We like the man who has the independence to pursue such a course in these days when so much foolish display is deemed necessary in inaugurations both National and State."

The English Society for Psychical Research has discovered that the soul weighs two ounces. We know men whose souls could turn a double somersault on the point of a pin and never be in danger of falling off.

GAINESVILLE, —THE— University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and consistent congregations; has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Paine's Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance.

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the nineties in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.

The University of Florida for young men and the National Agricultural Experiment Station are located within the corporate limits of the city. In fact, Gainesville has so many things that we must be pardoned if we omit a few of them in the following enumeration of what

Gainesville Has:

One artist.
No saloons.

SOME UNFAVORABLE SOIL CONDITIONS

By A. W. BLAIR

Florida Agricultural Experiment Station

It quite frequently happens that crop failures are due to unfavorable soil conditions rather than to a deficiency of plant food in the soil, and the ability to at once recognize such conditions and correct them will save the farmer many dollars.

Among such unfavorable conditions the following may be mentioned: (1) Hardpan; (2) the presence of iron salts; (3) excess of water; (4) lack of water; (5) the presence of acids in the soil.

HARDPAN.

By hardpan is meant a more or less hardened layer at some depth in the subsoil. It may be comparatively near the surface, or it may be several feet down. Hardpan obstructs the free growth of the roots downward in their search for food and water, and it may also prevent the free movement of the water downward, thus causing the soil to become water-logged during a rainy period; or it may prevent the free movement of the capillary water upward to the plant roots during a dry season. Hardpan may be calcareous, siliceous, or ferruginous (iron-bearing). The cementing materials go into solution near the surface and filter through into the subsoil, until at some particular level, where the subsoil may be naturally close-grained, the materials are deposited year after year in a layer which gradually becomes thicker and harder. If the plants or trees begin to show signs of trouble, an examination of the subsoil should be made—not stopping at one or two feet—and if hardpan is found it must be broken up, either by deep plowing, by digging, or as a last resort by the use of dynamite. The admission of air to this hard layer and the re-establishment of water circulation will tend to soften the hardpan.

Sometimes an artificial hardpan, or "plowsole," is formed when land is always plowed to the same depth. This could be avoided by occasionally plowing deeper.

IRON SALTS.

Iron is often found in quantity in the soil as an oxide, or hydrate, and in these forms it does but little if any harm. Their presence may be recognized by the yellowish to reddish hues which they give to the soil. On the other hand iron pyrites and salts of iron such as ferrous sulphate and ferrous carbonate are poisonous to plants. Some of these poisonous iron salts give to the soil a bluish or greenish color which is characteristic. This condition may be remedied to a certain degree by thoroughly stirring the soil, so that the air may circulate through it more freely. This tends to oxidize the poisonous compounds and make them harmless. Where iron salts are present in considerable quantity, it is possible for them to combine with the phosphoric acid of the soil and hold it in a form that is not readily available to plants. The free use of lime or finely ground limestone, together with thorough aeration will usually prove effective where poisonous iron compounds are present.

EXCESS OF WATER.

It is well known that plants do poorly in a water-logged soil. Under such conditions the air cannot circulate freely, the beneficial bacteria do not develop, and acid tends to accumulate. The remedy is to drain the land, thus getting rid of the surplus water, and then to plow deeply in order that the air may circulate freely and oxidize any poisonous substances that may have been formed.

LACK OF WATER.

A lack of water can often be remedied, at least partly, by more frequent and thorough cultivation, thus preventing excessive evaporation from the surface. The incorporation of humus or humus-forming materials with the soil will enable it to hold more of the water that falls upon it. This may be done by growing cover crops such as beggarweed, velvet beans, or cowpeas, and by leaving in the soil—not burning—the remains of plants.

ORGANIC ACIDS.

Organic acids are formed by the gradual decay of organic matter in the soil. If there is a deficiency of lime these acids will accumulate and finally cause trouble. When such acids are present in considerable quantities they interfere with the development of the nitrifying bacteria, and thus limit the supply of available nitrates for crop production. The acid condition may be remedied by a liberal application of lime or finely ground limestone. For further treatment of acid soils see Bulletin 93, which will be sent on request.

NOTICE.

Notice is hereby given that under and by virtue of a Final Decree of Foreclosure, rendered by the Judge of the Circuit Court of the Eighth Judicial Circuit of Florida, in and for Alachua county, in Chancery sitting, dated January 15th, 1909, in favor of W. B. Phifer as complainant, and against W. F. Grissom and S. R. I. Grissom as defendants, the undersigned will offer for sale before the court house door in Gainesville, Florida, between the legal hours of sale, on Monday, March 1st, 1909, to the highest and best bidder therefor, for cash, the following described lots, pieces, parcels or tracts of land, situated, lying and being in Alachua county, Florida, described as follows, to-wit:

All that portion of fractional Section 4, Township 11, Range 21, South and East, described as follows: Beginning at the Northwest corner of said fractional Section 4, Township 11, Range 21, running thence East on the Section line 25 chains and 21 links to a stake; thence South at right angles 22 chains and 20 links to a stake; thence West parallel with Section line, by estimation, 26 chains and 96 links to a point in a pond on the Western boundary line of said fractional Section 4; thence North on said Section line, by estimation, 22 chains and 21 links to the place of beginning, containing, by estimation, 57 9-100 acres of land, more or less.

The same to be sold as the property of said defendants, to satisfy said decree and costs.

Very Serious

It is a very serious matter to ask for one medicine and have the wrong one given you. For this reason we urge you in buying to be careful to get the genuine—

THE FORD'S BLACK-DRAUGHT Liver Medicine

The reputation of this old, reliable medicine, for constipation, indigestion and liver trouble, is firmly established. It does not imitate other medicines. It is better than others, or it would not be the favorite liver powder, with a larger sale than all others combined.

G. H. Falkenstein of Terra Alta, West Virginia, is among the late arrivals to the city. He is well pleased with the city and will spend the remainder of the winter here as the guest of A. S. Albright and family.

M. H. DeLand, cashier of the Bank of William, is now the happy father of a fine 11-pound boy, which was born Wednesday. This now makes two for the young cashier, which doubtless makes him feel his importance.

Holly Palmer of Macon, who was summoned here a few days ago on account of the death of his father, returned to his duties yesterday. He is connected with the railway mail service in the Georgia city and Macon is his headquarters.

E. J. Whitehead and J. A. Remmell, two well-known citizens of Melrose, were among the visitors to the city Wednesday. They state that the cold did very little damage in that section outside of a few gardens, which were planted mainly for home consumption.

We know you enjoyed "Charley's Aunt"—you thought it funny—we know it was funny—told you it would be. Now, will you believe us when we tell you "The Late Mr. Jones" is equally so. We will give you something to talk and laugh over for some time.

Dr. A. E. Cline, veterinary surgeon, has opened offices at Crawford & Davis' stables and solicits a share of the public business. He is a graduate of the Kansas Veterinary College and is here to practice his profession. Calls answered day or night. Horse dentistry, cattle and dogs all receive prompt attention.

Saunders & Earle yesterday made a shipment of 576 pieces of crockery which was sold outside of the city, besides they also made a large number of sales here in town. This is some crockery and one can easily judge something of the stock that is carried to supply the lot, and there is plenty of it left.

OPENING STATE FAIR WAS A GRAND SUCCESS

Alachua and Thirteen Other Counties Have Good Exhibits---Col. Bryan on the Ground.

TAMPA, Fla., Feb. 3.—The fifth annual Florida State Fair opened Wednesday of this week, with every assurance of the greatest success yet attained by these annual expositions. The exhibits are superior to those of former fairs in quantity, quality and attractiveness, and, although it was expected at the outset that there would be some difficulty in securing exhibits, the exhibit buildings are taxed to their capacity and the display of Florida products is unquestionably the best ever made.

Fourteen counties have county exhibits, as follows, in charge of the gentlemen named:

Washington, Collier Bros.; Columbia, T. J. Appleyard; Gadsden, W. M. Curry; Alachua, J. W. Tench; Marion, Mr. Carnes; Hernando, W. L. Fleming; and W. S. Hancock; Pasco, W. E. Embury; Manatee, F. C. Armstrong; Hillsborough, T. M. Wier; Polk, Hugh Wear; DeSoto, Ed. Scott; Lee, W. Stanley Hanson; and J. L. Cutler; Dade, B. B. Tatum and J. C. Balle; Osceola, W. L. Van Duser.

The poultry and livestock exhibits are larger and better than ever. The citrus fruit display is fully 100 per cent greater, and of much higher quality than that of last year.

The fair was formally opened on Wednesday, by Governor Albert W. Gilchrist, who was under escort of the Florida State Troops. A big opening parade moved from the grounds through the principal streets at 9 a. m., in which was included the military and civic organizations, officials of State, city and county, the 50 shows which constitute the Range and the 500 race horses which will participate in the race meeting which is to continue throughout the fair.

Hon. William Jennings Bryan has

arrived at Tampa and signal honor is being shown him. Thousands of visitors are here to participate in the various events of Bryan Day. The railroad and steamboat lines are offering unusually low rates to Tampa for the fair, and the attendance is expected, like all other features, to be a record-breaker.

Next week's program at the fair is of wide interest. Monday, February 8, will be Naval Stores and Lumbermen's Day, with a meeting of representatives of these industries at 10 a. m., to discuss matters pertinent to their enterprises. At 8 p. m., Monday, an illuminated parade of the Range attractions will occur, followed by a confetti battle. Tuesday will be South Florida Day, with speeches by leading citizens of South Florida in the main building at 11 a. m. A balloon ascension will occur at 5 p. m. Wednesday will be Jacksonville Day, and will also be marked by the State Convention of retail hardware men, to meet at the Tampa Bay Hotel at 10 a. m. Thursday Greater Tampa Day will be signalized by a civic parade, in which Tampa will "do itself proud." The Tampa Bay handicap will be run in the afternoon and, at special exercises at 1 p. m., prominent Tampanians will make addresses. Friday, Lincoln's Birthday, will have a special program, and the field day sports for the high schools of the State will occur. The judging of the educational exhibits will also take place on this date. Saturday will be Georgia-Alabama Day, and monster excursions from these States will bring thousands of people to the fair.

As advertising finds the best market for everything else, why not for your personal services?

Gave Bond for Appearance.

The Polites, who were arrested on Tuesday, waived examination yesterday and gave bond for their appearance at the next term of circuit court, when the case will be heard on a charge of slander.

Marriage at Alachua.

Mr. Henry Roberts, a prominent young man of Dunnellon, and Miss Barney Fincher of Alachua were happily married at the home of the bride's parents at Alachua on Wednesday. The couple left shortly afterwards for their future home at Dunnellon.

Senator Tillman Shows Crum to Be Unacceptable

WASHINGTON, Feb. 3.—The nomination of Dr. W. D. Crum to be collector of customs of Charleston, S. C., was before the Senate in executive session yesterday for more than four hours, at the end of which time no substantial progress had been made toward confirmation. After Senator Tillman had taken the floor, he called for a quorum and after the roll call he announced that he proposed to see that a quorum was maintained throughout the day.

The Vice-President called his attention to a ruling made in the last hours of the last session of Congress to the effect that business must not intervene between calls for a quorum and that a speech would not be regarded as "business." This announcement provoked a discussion of the rule, but throughout the afternoon no occasion arose to call forth a ruling on that question.

cations from various commercial bodies of Charleston in opposing the confirmation of the Crum nomination and read them to prove that his protest against Crum fully represented the popular sentiment in Charleston.

The Japanese and Chinese questions now causing discussion on the Pacific Coast were referred to, and Mr. Bacon (Georgia) made a general inquiry of the Pacific Coast Senators as to their attitude toward any proposition to appoint a Chinaman as collector of customs of San Francisco.

There was a very general discussion of the race problem, in which several of the Senators on the Democratic side took part. Senator Money occupied nearly an hour and reviewed the history of the races.

About fifty Senators remained in the chamber throughout the session. The nomination will come up tomorrow, and Mr. Tillman, it is expected, will continue his remarks.

BETRAYAL OF WOMAN CAUSED HIS DEATH

GAINESVILLE, Texas, Feb. 3.—Using an automatic revolver, Miss Verona Ware, daughter of a prominent farmer of this county, fired into a crowded court room here yesterday, continuing until her weapon was emptied and as a result John Hanes, a merchant of Jonesboro, for whom the bullets were intended, is dead; two bystanders, James Smith and David Ross are believed to be mortally wounded and A. P. Wiley, Jr., also a disinterested party, is seriously wounded.

It was during the conclusion of the case on trial in the district court that the shooting occurred. Miss Ware, as complainant and Hanes as defendant in a case of seduction, the former in an ante-room and the latter in the court room, were awaiting the calling of court. Approaching a window from which a view of the court room could be had, Miss Ware saw Hanes among the spectators and before she could be restrained drew the revolver from the folds of her dress and opened fire.

Three of the bullets went true to the intended mark, inflicting wounds in Hanes' back and arms from which he died within an hour. Smith was shot in the head and Ross was wounded in the back and arm. Wiley received a bullet in his leg. Miss Ware and her brother, Charles Ware, were arrested.

HAWTHORN.

HAWTHORN, Feb. 3.—The recent arrivals at Moore's Hotel are Mr. and Mrs. J. H. Libby and Mr. George A. Flack of Cleveland, Ohio.

Mr. and Mrs. R. T. Hollaway and daughters, Misses Anna and Roberta, left yesterday for Naples.

Dr. and Mrs. John D. Tripp of Auburn, N. J., will go to Largo Monday to join some friends from their home in New York.

A. H. Carter, wife and Miss Marion, Master Donald, and Mr. and Mrs. Ben of Lebanon, N. H., and Mr. and Mrs. Henry Blakeman of Connecticut, have engaged rooms at Moore's Hotel and will arrive Monday.

The sportsmen continue to bring in good bags of quail and duck.

Hugh J. Fowler, a highly respected citizen who lives some few miles northeast of Hawthorn, is very ill.

L. W. Fennell, ex-sheriff of this county, has moved back to his farm and orange grove and is making many improvements. His friends in the East End are pleased to see him among them again.

T. J. Hammond has purchased the R. M. Weeks dwelling house and lot on Main street and will erect a nice dwelling on the north part of the lot. Mr. Callaway has succeeded J. R. Chauncy as agent for the Seaboard Air Line Railway Company here. His wife and little son have gone to Tampa on a visit.

The people of this section are waiting for a special excursion to attend the Mid-Winter Fair at Jacksonville. A large number would gladly accept such an opportunity.

ARCHER NEWS.

ARCHER, Feb. 3.—Miss Minnie Heyman is visiting relatives in Savannah this week.

Rev. Hilton and family of Hampton have moved to our town and are located in one of the Fleming cottages.

Mrs. C. W. Bauknight is visiting her daughter, Mrs. J. H. Tucker, in Jacksonville.

Mrs. George Fleming and children have returned home after a pleasant visit to Jacksonville.

Miss Essie Smith is spending several weeks with her parents in Micahopy.

Mrs. Groves of Montbrook is visiting her daughter, Mrs. H. Maddox.

Mr. and Mrs. Robert Heagy entertained a party of young people Friday evening. A very pleasant evening was spent with games and music. De-

JUDGE EXCUSED JUROR FOR HIM TO MARRY GIRL

Work of Securing Jury in Cooper Trial at Nashville Progresses Very Slowly.

NASHVILLE, Tenn., Feb. 3.—The second week of the trial of Col. Duncan B. Cooper, Robin J. Cooper and John D. Sharpe was completed yesterday and the jury box remains unfilled. The day's proceedings were wearisome and fruitless, not one of the vacant seats in the box being filled. Altogether 162 talesmen were examined. The very few who attempted to qualify were challenged peremptorily by State or defense. It is not improbable that the fourth venire of 500 men will be exhausted tomorrow, in which event the fifth will be drawn and summoned and the hearing of the charges against Juror J. M. Whitworth will be resumed.

Judge Anderson of the defense arose to a question of personal privilege as soon as the sheriff declared the court in session.

"I object to a head-line in a morning paper," The Tennessean, which says that 'defense attacks character of Juror Whitworth and claim he purjured himself.'

"Now this is false. We did not examine Mr. Whitworth at all, and if we had, he might have said that he expressed an opinion. The story itself as written is correct, but the headline is cruel and misleading and we ask for redress."

The court made no comment on the statement of counsel, but said:

"It seems to me that we have a large venire—500 men—and that many of them have come miles to be examined. I suggest, therefore, that

we postpone further inquiry into the Whitworth matter until we examine this venire."

Excused to Get Married.

John W. Holt, one of the talesmen, accompanied by a buxom woman, approached the bench. Holt said:

"Judge, I got an engagement to get married at 10 o'clock and a jury summons for 10. What am I going to do?"

"Serve on the jury," said the court. "Well, judge, I sure am embarrassed. I have been trying to get this girl to marry me for a long time and I feel I ought to go through with it now. It's dangerous to put it off."

The court teased the prospective juror a while, then excused him.

"In six months he may wish I had kept him on that jury," commented the court.

The first talesman called was A. E. Greer, who said he could not read, but his wife could; that he lived two miles from his brother, but had not seen him in three years. Asked if his wife was not pretty talkative he replied:

"You jest com out and listn to her."

Greer was sure there was a killing, but he was not sure who was killed or who did the killing.

Although he seemed to be an ideal juror, Greer was challenged by the defense.

After many lengthy arguments over the competency of jurors, 162 were excused and the court adjourned for the day. No additions had been made to the jury.

Repairing East Main Street.

The street force is now busily engaged in repairing East Main street, in front of the fire station, which has long been needed. This work was ordered done by the council, but the hands have been so busy in other sections that they are just now being placed there.

Osborn and His Divorced Wife Will Make New Start

PHILADELPHIA, Feb. 3.—Miss Helen Maloney of this city and Arthur Herbert Osborn of New York were married yesterday by Rev. Stephen M. Lyons at St. Catherine's Roman Catholic church, Spring Lake, N. J.

The marriage marks the culmination of a chapter of what may properly be termed an international romance. It began in October, 1907, when the social world was startled by the announcement that Miss Helen Maloney had eloped from her father's palatial summer home at Spring Lake with Samuel R. Clarkson of London who had been a guest at the home of Martin Maloney, who is one of the wealthiest men of this city and prominent socially.

Mr. Maloney finally located the young couple in Europe and brought his daughter back home.

In the meantime the discovery was made that Miss Maloney had gone through a marriage ceremony with Arthur Herbert Osborn of New York

who was then a student at Princeton University.

All of this made a newspaper sensation when it became known but the Maloney family maintained silence. It was known, however, that Mr. Maloney, who has been highly honored by Pope Leo XIII, who conferred upon him the title of marquis, took up the question of the annulment of the marriage both at Rome and at the arch diocese of the Catholic church in this city. Finally in the New York courts, annulment of the marriage was granted on the ground that they had never lived together. Miss Osborn was a witness in her own behalf, Mr. Osborn putting up only a passive defense. Miss Maloney testified that she never considered that the marriage joined her and Mr. Osborn together as man and wife, and that she went through the ceremony as a precautionary measure to save herself from the attentions of titled foreigners who were regarded favorably by her parents.

GAINESVILLE FAMOUS AS CONVENTION CITY

THIS CITY SELECTED AS THE
NEXT MEETING PLACE.

Baptist State Convention Will Hold
Next Annual Meeting in the Uni-
versity City Next January.

Through the efforts of Rev. S. B. Rogers and the committee of dele-
gates from Gainesville, this city
has been selected for the next meeting
of the State Baptist Convention.

Notwithstanding that DeFuniak
Springs is away to one side of the
State there were over three hundred
delegates in attendance at the meeting
just closed, and it is expected that
fully five hundred will meet here at
their next session.

The next meeting, which occurs
some time in January, will be held
here, and the fact that Gainesville has
always done herself proud on these
occasions assures the committee who
worked so hard to obtain the meeting
that they will be amply repaid for
their trouble.

Gainesville is fast becoming the con-
vention city, and with a little more
hotel accommodations there would be
nothing in the way of her securing
many of the leading meetings, as her
location makes it the most accessible
place.

MASONIC TEMPLE IS NEARING COMPLETION

The new Masonic Temple for Gaines-
ville is now about completed and the
Masons will soon have the privilege
and pleasure of meeting in their own
magnificent structure.

The stone work for the building was
all finished Saturday and the contrac-
tor for this part of the work took his
departure.

Only a part of the roof remains to
be put on, and then the building will
be given up to the carpenters to put
on the finishing touches to the inside,
which will be the early part of the
coming week.

When completed it will be one of
the nicest buildings of the city, and
will be a credit not only to Gainesville
but one of the best and largest halls
of its kind in the State.

LOCHLOOSA NOTES.

LOCHLOOSA, Feb. 1.—Last Tues-
day quite a number of Island Grove
people came over and had a picnic on
the lake and also enjoyed themselves
boat-riding.

J. H. Upthegrove has his launch
running again on the lake.

Misses Anna, Selma and Lois Tomp-
kins returned Monday from Ft. McCoy,
where they have been visiting rela-
tives.

J. N. Haymans and J. Jackson made
a flying trip to Micanopy Monday.

Geo. Watson of Island Grove was in
our town Tuesday shopping.

Rev. B. T. Pope filled his appoint-
ment here Sunday.

Strawberry growers of this com-
munity made their first shipment
last week.

J. N. Haymans and C. T. Johnson
made a business trip to Jacksonville
Saturday.

We see quite a lot of nice furniture
in the depot for one of our young men.
Wonder what that means?

R. O. Mingledorf was disturbed
Thursday night by a visitor, when his
son, Charley, and his faithful dog
made an investigation and found it
to be a large wildcat. They were suc-
cessful in capturing the intruder.

An Extensive Farmer.

W. C. Townsend of Lake Butler was
among the visitors to the city yester-
day. He is one of the most extensive
farmers and stockmen in that section,
having something over seven hundred
acres of land which he uses for pas-
torage only. Besides running a large
farm, he devotes a considerable part
of the time to stock raising and has
his own private cold storage plant for
the curing of his meats.

ABSOLUTE CURE OF SKIN ERUPTION

Broke Out on Hips and Legs—Was
So Sore, Irritating and Painful
that Little Sufferer Could Not
Sleep—Scratched Constantly and
Kept Growing Worse.

CUTICURA'S EFFECT QUICK AND PERMANENT

"When about two and a half years
old my daughter broke out on her hips
and the upper parts of her legs with a
very irritating and painful eruption. It
began in October; the first I noticed
was a little red surface and a constant
desire on her part to scratch her limbs.
She could not sleep and the eruptions
got sore, and yellow water came out of
them. I had two doctors treat her, but
she grew worse under their treatment.
Then I bought the Cuticura Soap, Cuti-
cure Ointment and Cuticura Resolvent,
and only used them two weeks when she
was entirely well. This was in Febru-
ary. She has never had another rough
place on her skin, and she is now four-
teen years old. I used only half the
bottle of Cuticura Resolvent and less
than a box of Cuticura Ointment. Mrs.

COMPLAINS OF ASPERSIONS.

B. G. Brooks Takes Exception to
Editor Farmer's Article.

Editor Sun: Kindly allow me space
for a few words to the people of this
section of the country, among whom
my brother and I were raised and by
many of whom, from Fort Meade to
the Georgia line, we are well known.

We were arrested on a charge of
counterfeiting, and with no real com-
mitting evidence were committed to
jail at Bronson to await trial by the
U. S. court. After enduring four and
a half months' confinement therein
... we released ourselves from jail
determined not to return there for
detention again.

After remaining at liberty until we
learned the date of convening of the
U. S. court we came to Gainesville
and surrendered ourselves to Sheriff
Ramsey of Alachua county for safe-
keeping until that time.

Our treatment here has been just,
clean and impartial, and Sheriff Ram-
sey deserves all the praise we could
bestow upon him for his unvarying
kindness to us and other prisoners.

I learn that The Levy Times-Demo-
crat in recent articles has referred to
my brother and myself as the "Levy
County Counterfeiters," ignoring the
fact that neither of us has been con-
victed of this crime or misdemeanor,
and with disregard of the fact that
applying such names to us is likely
to prejudice to some extent a number
of the good people of our home county,
and acquaintances abroad.

Thanking you in advance for your
courtesy, I am, yours truly,

B. G. BROOKS.
Gainesville, Fla., Feb. 1, 1909.

Has Opened for Business.

J. F. Dupree & Bro. is the style of

BIBLE CONFERENCE CONTINUES ITS WORK

GOOD CONGREGATIONS IN SPITE
OF THE COLD WEATHER.

Bishop Morrison Preached Sunday
Night to Large and Appreciative
Audience—Dr. Smith Last Night.

From Tuesday's Daily Sun:

The deep cold, accompanied by fre-
quent blustering winds, had little ef-
fect upon the attendance at afternoon
and evening services of the Florida
Winter Bible Conference in the Taber-
nacle Sunday. There were no morn-
ing services in the Tabernacle, the
Conference having given way to the
various churches of the city, at all of
which visiting divines of national
reputation filled the pulpits.

Dr. Smith appeared in the second
of a series of three sermons at 3
o'clock in the afternoon at the Tab-
ernacle. The exercises were pre-
ceded by a song service by the choir
of half a hundred voices, conducted by
Prof. Lincoln H. Hall and Irwin H.
Mack, of Philadelphia.

The Conference exercises were con-
cluded in the evening by an eloquent
discourse by Bishop Morrison, who
kindly consented to remain over for
the occasion. He took for his theme
a part of the Gospel of St. Matthew re-
lating to ancient parables, pleasing to
compare them with modern times as
"Religious Merchandise." For an hour
the speaker commanded the closest
attention of his hearers. He dwelt at
length upon the comparison of capi-
tal and labor and their natural impor-
tance, one to another, for success, and
impressed upon his audience the ab-
solute necessity of harmony between
both.

The sermon of Dr. Morrison was
preceded, as usual, with a half-hour
song service, enjoyable features being
the rendition of the selection, "Blood
on the Cross," by Messrs. Hall, Mack
and Guille, assisted in the chorus by
the choir and congregation, and a vo-
cal solo, "Jesus, I Love Thee," by
Prof. Hall.

Monday's Session.

The usual Bible hour, from 10 to 11
o'clock, conducted by Rev. Geo. E.
Guille, attracted a good audience,
which was composed of those who have
grown to manifest a deep interest in
the teachings of Dr. Guille. These
morning exercises form a most im-
portant part of the session, although
they have not so far been as largely
attended as the afternoon and even-
ing services. Those who do at-
tend, however, go regularly, and the
attendance is increasing daily. As a
Biblical student and teacher, Dr.
Guille has few equals in the country.

In the afternoon at 3:30 Bishop Mor-
rison delivered another of his interest-
ing sermons to a good congregation,
and in the evening Rev. Dr. Smith
closed his engagement here, much to
the regret of those who had hoped he
would decide to remain longer.

THE COLD WAVE DID CONSIDERABLE DAMAGE

TEMPERATURE DROPPED TO 23½
DEGREES SUNDAY MORNING.

Ice Formed as Far South as St. Petersburg on Gulf Coast and Jupiter on East Coast.

From Tuesday's Daily Sun:

The severe cold which was predicted to reach this section on Saturday night struck Florida with full force, and Gainesville in particular, on the scheduled time, but the damage will not reach what it was first anticipated.

Many of the large cabbage growers were seen Monday and they stated that from present indications they thought that about 30 per cent of the cabbage crop had been killed, but nothing positive can be furnished in this respect until two or three days, when the real effect of the cold will then begin to show up.

All of the out-door lettuce that was advanced far enough to head, or in the headed state, was killed outright, but there is still a good deal of frame lettuce which is left, and the growers who are fortunate in having this will make more out of it than they would otherwise have done had not the cold snap occurred.

The peach trees which were full of young fruit suffered the loss of fruit and bloom, but there are still many buds left, and it is considered fortunate for them that the damage was no worse.

The largest orchard heard from was the one owned by Gainesville people and Mr. Warner said they lost fully 10,000 bushels of early fruit, which was the case with many of the smaller groves that were far advanced.

Sunday night was not as cold by five degrees as was Saturday, although more ice formed. The Government thermometer went down to 23½ degrees on Saturday night, and numerous other thermometers were reported as low as 22. Sunday night's register showed 27½, and this gave the farmers hope that the cold snap had passed this section.

From Other Parts.

All along the West Coast the cold was reported as bad in proportion as it was here, and everything in the vegetable line was reported knocked out. In fact, the freezing point reached as far South as parallel 27, which is South of Tampa.

Young vegetables were killed at St. Petersburg, and at that place the weather man reported 30 degrees, with plenty of ice forming there on Sunday night, which shows that they had the worst of the cold weather Sunday night.

From Webster, which is a large shipping point on the Coast Line, the growers there report that all lettuce was killed, and they fear the cabbage crop is damaged fully one-half, but, as in Gainesville, no one can tell the damage to them for several days.

The Sanford celery section was not hurt to any extent, although it reached the freezing point there and all lettuce was hurt to a large extent.

The growers of Florida should feel thankful that they have as much left as they have, for the freeze was even greater in Georgia and the Carolinas, and it will place Florida growers far in advance of their northern neighbors.

C. R. Kluger, the jeweler, 1060 Virginia avenue, Indianapolis, Ind., writes: "I was so weak from kidney trouble that I could hardly walk a hundred feet. Four bottles of Foley's Kidney Remedy cleared my complexion, cured my backache and the irregularities disappeared, and I can now attend to business every day, and recommend Foley's Kidney Remedy to all sufferers, as it cured me after the doctors and other remedies had failed." SUDDEN DEATH OF COL. PALMER.

Occurred at His North Gainesville Home Sunday Evening.

From Tuesday's Daily Sun:

The sudden death of Col. W. H. Palmer occurred at his North Gainesville home Sunday evening about 6:30, and came as a great surprise to his numerous friends throughout this city.

The deceased was complaining only for a short while before his death, and as he had had previous attacks of this kind, nothing was thought of the occurrence by his good wife until she returned to his room a few minutes later and found him gasping for breath and in an unconscious state.

Col. Palmer was about 68 years of age and came to this city some twenty-four years ago, engaging in the practice of law, which he built up to a large and remunerative practice. Of recent years he had several large clients who occupied the most of his time, and he had quit doing a general practice and moved his offices to his home.

The deceased leaves a wife and two children, Mrs. H. S. Graves of North Gainesville, and one son, Holly Palmer of Macon, who arrived yesterday to make arrangements for the funeral.

The funeral services will be held at the residence this afternoon at 2:30 o'clock, Rev. T. P. Hay preaching the services, which will be concluded at the grave.

Following is the list of pall bearers who are requested to meet at the home of the deceased at 2:15 o'clock: Dr. W. Porter, L. C. Gracy, A. O. Steenburg, I. E. Webster, J. E. Hudson, W. R. Steckert.

Funeral of Col. Palmer.

The funeral of the late Col. W. H. Palmer was held Tuesday afternoon from the residence of the deceased in North Gainesville. Owing to the extreme peculiarities of the man, he requested that his friends take charge of his remains and he be buried by them, and his every wish was followed as near as it was possible. A large number of friends escorted the remains to the grave in Evergreen cemetery.

The above is the name of a German chemical, which is one of the many valuable ingredients of Foley's Kidney Remedy. Hexamethylenetetramine is recognized by the medical text books and authorities as a uric acid solvent and antiseptic for the urine. Take Foley's Kidney Remedy as soon as you notice any irregularities, and avoid a serious malady. J. W. McCollum & Co.

For City Marshal.

I respectfully announce myself a candidate for the office of City Marshal, to be voted for at the election on April 13, 1909. If elected I will faithfully discharge the duties of the office without fear or favor. I respectfully solicit the votes of all, irrespective of party affiliation.

Deputy Bruton Arrests Politis.

From Wednesday's Daily: Deputy Sheriff W. R. Bruton yesterday arrested Anthony Politis, Sr., and his son, both having been charged by one Rosa Murphy of slander. The cases will be heard before Justice Carlisle in his office today. Although Politis professes to follow in the steps of the righteous one, he is invariably connected in some court scrape, both he and his young son.

TWO NEGRO BOYS ARE JAILED ON TUESDAY

ONE CHARGED WITH KILLING,
OTHER FOR STEALING.

Willie English Killed His Playmate
Near Waldo—He Will Have
His Preliminary Today.

From Wednesday's Daily Sun:

Willie English, a young negro boy of Waldo, was brought in Tuesday by Deputy Sheriff Dawkins on a charge of murder and will be given his preliminary hearing today before Judge H. G. Mason.

It will be remembered that while engaged at play with his companion, Jacob Cheatham, at that place one day recently, they became involved in a difficulty and the former killed his companion, which was claimed to be accidental.

Several witnesses have been summoned in the case.

Stole Bicycle From Here.

Henry Mickens, a young negro boy, stole a bicycle from John Chessier and skipped out to Ocala, but was arrested there and brought to Gainesville Tuesday evening by Sheriff Ramsey.

The little negro gave another little negro the money to go and rent the wheel, and told him that in return for his trouble he would let him ride some before he turned same back, but instead of returning the wheel he at once left the city for Ocala, going through the country on the bicycle. Nothing was heard from the wheel for several days, but it was finally located and a warrant sworn out for the boy.

Sheriff Ramsey also secured the bicycle and brought it back to the city.

U. S. COURT IN SESSION.

Convened in Gainesville Monday With
Judge Shepard Presiding.

From Tuesday's Daily Sun:

The United States court for the Northern district of Florida convened in this city Monday afternoon at 2:30 o'clock, with Judge William B. Shepard presiding.

The officers of the court are all in attendance, as follows: W. B. Shepard, judge; Frederick W. Marsh, clerk; A. M. Cushman, assistant clerk; Emmett Wilson, attorney; Thomas F. McGourin, marshal.

Nothing was done except to empanel the grand jury and excuse a large number who had been summoned, but several cases will come up for hearing today.

Beware of Ointments for Catarrh That Contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

For Marshal.

To the Voters of the City of Gainesville:

I am a candidate for City Marshal, for re-election on April 13. I have served the people faithfully and efficiently, night and day, and my record is open for inspection.

If my service during the past year has been satisfactory I ask the support and vote of each and every citizen who is qualified. I can only promise the same service as I have endeavored to give in the past.

Yours for order,
BEN T. ARNOW.

CATHERINE HAILE LEADS IN CONTEST

HAS 840 MORE VOTES THAN MISS ELLIS.

Each of Them Received Over Thirty Thousand Votes Yesterday—Besie Dupree Next With 16,000.

There was "something doing" in the piano contest yesterday and a very large vote was polled in consequence. Catherine Haile again forged to the front and is once more at the top of the ladder. Rumor has it that two of the other contestants will receive a tremendous vote before the week is past, and that the two leaders will take a drop from their present position.

Following is the standing of the contestants:

Miss Catherine Haile, city	459,930
Miss Dorian Ellis	459,090
Miss Besie Dupree, city	399,090

Cold and La Grippe.

Mr. C. Happy, Hardin, Ray Co., Mo., writes: "I can safely recommend Peruna as a remedy that will cure all catarrhal troubles."

"It was of great benefit to me, as it cured me of catarrh of the throat, and I took a very bad cold and had la grippe last February. It settled in my throat and lungs. I took three bottles of Peruna and it cured me."

"I highly recommend it to all who are sick, and I am glad to add my endorsement to that of others."

Pe-ru-na for Colds.

Mr. L. Clifford Figg, Jr., 2929 East Marshall St., Richmond, Va., writes that when he gets a cold he takes Peruna, and it soon drives it out of his system. For several years he was not entirely well, but Peruna completely cured him.

ing contestants, has received the following highly appreciated letter from a student of the University of Michigan, in which the writer picks her as the winner of the piano:

"413 South Division St.,
Ann Arbor, Mich."

"Dear Catherine:—Way up here in the North woods by chance a Florida paper came into my hands, and when I saw that the name of Catherine Haile led the list of fair damsels of Gainesville, I knew that I could not let a good ballot go to waste, when a girl like you was a candidate for a real live piano. I always liked the name of Catherine, and I got an impression that the people there in Gainesville like the name of Catherine too, not for the sake of the name, but for the sake of the lady. I just received the paper this morning, and fear that the ballot may be a little late to be recorded, but better late than never. I hope you will excuse my boldness in writing, but boldness is not found in the vocabulary of students at the University of Michigan. I hope that if I am ever in the neighborhood of Gainesville I will hear you teasing Mozart and a few other of my favorites from that piano, which I am positive will be yours. I assure you that the name of Catherine found favor here, and not the fact that you head the list, for I picked the name with the opposition of several of my classmates."

"Sincerely wishing you success, I remain, in expectancy,
"RALPH S. KINGSBURY."

Death of Little Child.

Mrs. H. R. Fewell yesterday received the sad information of the death of her little niece, Ruby Sheffield, which occurred on Friday of diphtheria. She was in her 12th year and formerly lived with her parents in this city. Four other children in the same family are now afflicted with the disease.

DOLPH CHAMBERLIN HAS DISTINCTION

OF SHIPPING FIRST CAR OF CABBAGE THIS SEASON

Over Tampa and Jacksonville R. R. Many Small Shipments Had Been Made—Good Returns Expected.

The first carload of cabbage shipped from the Tacoma section was cut by Dolph Chamberlin last Friday and left that place on Saturday via the Tampa and Jacksonville railway for the Northern markets.

Mr. Chamberlin says that while it is no big thing to have these honors, it generally makes one feel good to know that he has outdistanced his neighbors in growing the stuff and getting the largest shipment off first.

This car was all loaded with choice heads which run all about even and he expects to reap a good return for them, taking into consideration that there will not be a loaded market on their arrival and the reports from all sections are that vegetables were more or less damaged by the recent cold weather.

He states that his large farm, the most of which is in cabbage, never looked better, and he expects to ship another car within the next few days, when he will commence the work of getting them out regularly. He thinks the crop will bring lots of good hard cash back to this county the present season.

Bible Conference.

Another interesting day was had at the Bible Conference Wednesday, which was highly enjoyed by those present.

The Missionary Conference will continue today, and as stereopticon views are used to illustrate the lectures it is well worth the while for as many as possible to attend these meetings.

Bible study hour is also very pleasing, and the fine music under Profs. Hall and Mack is receiving compliments from the public generally.

Notice of Dissolution of Partnership.

Notice is hereby given that the firm of S. G. Gay & Company, composed of S. G. Gay and Perry M. Colson, has this day been dissolved by mutual consent. (Signed.)

Micanopy, Fla., Nov. 14, 1908.

Reports from all over the Southern part of the State are to the effect that the orange crop has not been injured by the late cold wave. Even as far south as Tampa, where the thermometer registered 26 degrees, there was not the slightest indication that the trees were damaged in any way.

NEWS FROM ALL PARTS OF FLORIDA

The rails have been purchased for Sanford's trolley line and the work of laying same will soon begin.

Mr. Geo. W. Safford, Jr., and Miss Lula E. Fussell were happily married at Wildwood on Sunday, January 24.

The celery crop is now being moved from Sanford to the markets and the growers are receiving satisfactory returns.

Former Attorney-General W. H. Ellis and W. B. Clarkson of Jacksonville have formed a copartnership for the practice of law in the State metropolises.

A party of Leesburg sportsmen killed between 400 and 500 doves in a few hours' shooting one morning last week. They left town at 3 a. m. and returned at 11 a. m. the same day.

Dr. Guy C. Estes died at the Railway Hospital in St. Augustine last Friday of appendicitis and other complications. He was 32 years of age and was a resident of Palatka, where his remains were laid to rest.

MI-O-NA

RELIEVES STOMACH MISERY ALMOST IMMEDIATELY.

If the food you ate at your last meal did not digest, but laid for a long time like lead in your stomach, then you have indigestion and quick action should be taken.

Of course there are many other symptoms of indigestion, such as belching up of sour food, heartburn, dizziness, shortness of breath and foul breath, and if you have any of them, your stomach is out of order and should be corrected. Mi-o-na tablets have cured thousands of cases of indigestion and stomach trouble. If you have any stomach distress Mi-o-na will relieve instantly.

But Mi-o-na unlike most so-called dyspepsia remedies, does more than relieve; it permanently cures dyspepsia or any stomach trouble by putting energy and strength into the walls of the stomach, where the gastric juices are produced.

A large box of Mi-o-na tablets costs but 50 cents at J. W. McCollum & Co's. and are guaranteed to cure or money back. When others fail, Mi-o-na cures. It is a producer of flesh when the body is thin; it cleanses the stomach and bowels; purifies the blood and makes rich red blood.

The General Demand

of the Well-Informed of the World has always been for a simple, pleasant and efficient liquid laxative remedy of known value; a laxative which physicians could sanction for family use because its component parts are known to them to be wholesome and truly beneficial in effect, acceptable to the system and gentle, yet prompt, in action.

In supplying that demand with its excellent combination of Syrup of Figs and Elixir of Senna, the California Fig Syrup Co. proceeds along ethical lines and relies on the merits of the laxative for its remarkable success.

That is one of many reasons why Syrup of Figs and Elixir of Senna is given the preference by the Well-Informed. To get its beneficial effects always buy the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists. Price fifty cents per bottle.

W. E. Hinch, marshal of St. Augustine, who was suspended for thirty days, reassumed his official duties on January 30. The most pleasant relations now exist between the mayor and marshal, all differences having been amicably settled.

W. M. Brown, former president of the defunct Fort Dallas Bank at Miami, has for the second time been acquitted of any wrong doing in connection with the failure of that financial institution. His devoted wife stood loyally by his side throughout both trials.

The Sumter county court house was completely destroyed by fire at Sumterville at noon last Saturday. When the blaze was first discovered an alarm was sent in and citizens rushed to the scene, doing what they could to save the furniture. The exact amount of the loss has not been ascertained.

A daring robbery was committed at Dunnellon last Wednesday night, when the Withlacoochee Hotel was invaded by thieves and a number of guests were relieved of their watches and other valuables. The intruders gained entrance from the outside by means of a ladder and were making a circuit of the rooms when surprised by one of the lodgers as he attempted to enter his room. One man in his flight left a derby hat, which may help the officers in tracing the offenders. It is believed by many that this was the work of an organized gang. A number of hold-ups have been reported in the last month. Probably the heaviest loser is J. M. Tucker, route agent for the Southern Express Company. Messrs. N. L. Bedford and J. W. Elliott, well-known traveling men, were relieved of their valuables.

SKULL FRACTURED BY KICKING MULE

PROF. F. H. ELLIS LAID UP FOR SEVERAL DAYS.

Was Visiting His Farm When the Unruly Animal Threw Him, Later Kicking Him in the Head.

Prof. F. H. Ellis of Alachua, principal of the high school there, is suffering from a fractured skull as the result of coming in contact with the heels of a mule.

He had ridden the animal out to his farm near Alachua last Saturday evening, when the animal became frightened, or stubborn, and threw the rider off, later kicking him, the kick being just above the left temple. He was rendered unconscious by the blow for a short while, but soon came to and was taken back to Alachua, where he received medical attention.

It was found necessary by the physicians in charge to trepan his skull, and the patient is now resting as easily as could be expected.

During his absence from the school his position will be filled by Miss Foster, first assistant, while Prof. Futch takes Miss Foster's place. It is anticipated that the patient will be enabled to resume his duties within the next ten days.

Although his skull was fractured, Mr. Ellis took his misfortune very quietly and was sufficiently able to write a note informing Superintendent Kelley of his injury before the doctors proceeded to operate upon him.

How many tired fathers and mothers in this town enter this race every night carrying a baby? And they wonder what the matter is. Chances are the child is starving—worms are eating all of its food. Some persons have been poisoning valuable dogs and cats in this town and vicinity again recently. We learn that poison on bread was also thrown into a yard near Bonifay, and in consequence a 2½-year-old child, who knew no better than to eat it, now lies at the point of death with chances against its recovery.—Chipley Verdict.

Will get into mischief—often it means a burn or cut or scald. Apply Ballard's Snow Liniment just as soon as the accident happens, and the pain will be relieved, while the wound will heal quickly and nicely. A sure cure for sprains, rheumatism and all pains. Price 25c, 50c and \$1.00 a bottle. Sold by W. M. Johnson.

Unconcerned.

An incident illustrating the placidity, if so it may be called, of the Duke of Wellington has reference to a naval officer, a near connection of the duke. The ship which this officer commanded was lost, and he himself was drowned. When the news was communicated to the duke, he merely exclaimed, "That's the second ship he has lost!"

The Eccentrics.

"I understand the Neweds are having trouble," remarked the spinster boarder. "Some people take her part, and some others side with him." "And I suppose," growled the scanty haired bachelor at the pedal extremity of the mahogany, "there are a few eccentric people who mind their own business."—Chicago News.

Ask Her This Question

"Do you know of any woman who ever received any benefit from taking Lydia E. Pinkham's Vegetable Compound?"

If any woman who is suffering with any ailment peculiar to her sex will ask her neighbors this question, she will be surprised at the result. There is hardly a community in this country where women cannot be found who have been restored to health by this famous old remedy, made exclusively from a simple formula of roots and herbs.

During the past 30 years we have published thousands of letters from these grateful women who have been cured by Lydia E. Pinkham's Vegetable Compound, and never in all that time have we published a testimonial without the writer's special permission. Never have we knowingly published a testimonial that was not truthful and genuine. Here is one just received a few days ago. If anyone doubts that this is a true and honest statement of a woman's experience with Lydia E. Pinkham's Vegetable Compound write and ask her.

Houston, Texas.—"When I first began taking Lydia E. Pinkham's Vegetable Compound I was a total wreck. I had been sick for three years with female troubles, chronic dyspepsia, and a liver trouble. I had tried several doctor's medicines, but nothing did me any good.

"For three years I lived on medicines and thought I would never get well, when I read an advertisement of Lydia E. Pinkham's Vegetable Compound, and was advised to try it.

"My husband got me one bottle of the Compound, and it did me so much good I continued its use. I am now a well woman and enjoy the best of health.

"I advise all women suffering from such troubles to give Lydia E. Pinkham's Vegetable Compound a trial. They won't regret it, for it will surely cure you."—Mrs. Bessie L. Hicks, 819 Cleveland St., Houston.

Any woman who is sick and suffering is foolish surely not to give such a medicine as this a trial. Why should it not do her as much good as it did Mrs. Hicks.

RECEIVER BEGINS AN INSPECTION OF S. A. L.

ATLANTA, Ga., Feb. 2.—Davies Warfield of Baltimore, Md., one of the receivers of the Seaboard Air Line, begins tonight a trip of inspection of more than ordinary importance as affecting the future of the Seaboard.

He will make stops at Atlanta, Birmingham, Jacksonville, Tampa, Fernandina, Savannah, Wilmington and other points with a view of determining upon the proposed changes and improvements.

Hoarse coughs and stuffy colds that may develop into pneumonia over night are quickly cured by Foley's Honey and Tar, and it soothes inflamed membranes, heals the lungs, and expels the cold from the system. J. W. McCollum & Co.

St. Augustine will entertain the editors of the State this year, the State Press Association having designated that city for their convention.

Foley's Orino Laxative cures constipation and liver trouble and makes the bowels healthy and regular. Orino is superior to pills and tablets as it does not gripe or nauseate. Why take anything else? J. W. McCollum & Co.

GREAT DEFICIT IS FACING THE NATION

anxiety Prevails in Washington With Reference to
Panama Canal Affairs--Cromwell Attacked.

(Special Correspondence The Sun.)
WASHINGTON, D. C., Feb. 1.—As the calendar year closes it is brought home to the Treasury Department and to Congress that there has been a shrinkage of the national income. Since the fiscal year began on July 1 the nation has spent more than five millions dollars more than it has collected, and this is the showing for only six months of the year. The Secretary of the Treasury estimates that the deficiency will be one hundred and fourteen millions for the current fiscal year. Last year this deficit amounted to only fifty-eight millions, and the preceding year there was a surplus of forty millions. But from a financial point of view the worst part of the year is yet to come. No matter how hard the watch dogs of the Treasury in the House and the Senate may bay and growl and show their teeth, a raid is determined upon, and appropriation bills are piled up to swell, and indeed it will be a heavy economy to postpone river and harbor improvements, the canalization recommended by the President, and the convention on water transportation recently held in Washington. These and other national enterprises will cost millions, perhaps billions. They come high, but we must have them. They are economical necessities, and it is easy to figure that they will return the country a splendid interest on the investment. The Government will simply have to resort to other sources of taxation to raise funds for these improvements. A tax on bank checks and on deeds conveying real estate, on coffee and tea will only fill the national exchequer, and this should be added, as was the case during the Spanish war, of a dollar a barrel on beer, the nation will have enough to improve the waterways and the roads, to increase the army and navy, and to carry on without deficit the multifarious affairs of government.

There is evident anxiety at the White House with reference to the reported conditions on the Isthmus. It has been rumored for some time that the Gatun dam is a failure, and although these rumors have been repeatedly denied they persist, and the fact that the President has asked the President-elect to go to the Isthmus, taking at his disposal two warships and appointing six distinguished civil engineers to accompany him, is ground for foreboding with many in reference to the final success of this stupendous undertaking.

There was a one time unwritten law to the effect that new members of that body should be like children, seen but not heard, but the precedent has been shattered by a few roaring youngsters like La Follette, Beveridge and others that there was only a mild sensation last week when Senator Cummins of Iowa delivered his maiden speech on the subject of postal savings banks. The new Senator was not lauded, as he would have been in the old days, by speaking to empty benches or having to endure irrelevant interruptions, but held fairly large numbers of his colleagues in their places and was declared by them later to have acquitted himself like a veteran.

Representative Rainey of Illinois introduced a little sensationalism into the proceedings of the House by a speech in which he accused the President of a misstatement of facts in his message to Congress concerning the Panama canal in 1906, and an attack on Mr. Cromwell for his connection with affairs in Panama as General Counsel for the Panama Canal company. He closed his speech with a promise or a threat to finish Mr. Cromwell up at some later date, and said: "When I am through with this man Cromwell the President and the President-elect are welcome to all that is left of him." Mr. Rainey went on for four hundred years into the history of Panama, brought it up to date, and concluded with a prediction for the future in which the United States is to wreck itself on the same rocks which foundered the French ca-

nal scheme. Mr. Cromwell was characterized as the "Nation's despoiler," and he insinuated that the President-elect has been a party to schemes on the Isthmus which have been of profit to Mr. Cromwell, his personal friends and Charles P. Taft, his brother. Sensations have become so common in Congress of late that they have lost their edge, and so many have had a hand in the pastime of spanking the President that a charge against the President-elect is regarded as a mild affair.

An elderly white haired man who has spent the most productive part of his life on a sheep ranch in Montana, the benign Senator Carter of Montana, is responsible for the proposition to have a road about two hundred feet wide from the front door of the White House to the battle field of Gettysburg with spaces along it allotted to each State which will be called upon to erect groups of statuary or monuments suitable as a Lincoln memorial. The proposition sounds well. A national memorial to the great President is desirable, and such a highway might well embody the artistic and patriotic sentiment of the people, but carried out it might result in such another group of statuary horrors as may be seen in the rotunda of the capitol or in some of the squares of Washington. Nothing short of physical violence it seems can eradicate from the American mind the love of equestrian statues, and the thought of fifty miles of war heroes careering and cavorting on impossible horses is one to make the most stoical apprehensive. Of course the automobiles in New York, Philadelphia, Baltimore and Washington are charmed at the idea of a road surpassing that at Daytona for motor racing, but artists and architects are flooding their members in Congress with appeals to leave the decision about the adornment of the road to those who know something about art. Three propositions are before Congress for the construction of a proper memorial to Lincoln. One provides for the road to Gettysburg, another for a monument upon a location south of the Washington monument, and the third for a memorial arch or peristyle between the new union Station and the capitol. It has also been suggested that the capitol grounds be extended and a suitable monument be placed in them as a memorial. D. H. Burnham, the distinguished architect, has cabled from Europe that a peristyle and a monumental architectural treatment of the entrance way to the Capitol in no matter whose name it is erected is demanded by artistic requirements, and it would certainly seem to the lay mind a better solution of the disturbing problem than a half-buried statue on the river front, or even an imitation of an Apollon way to Gettysburg.

The President, who is not only the advocate of large families but also the friend of children, appeared twice last week at the convention which had for its object the betterment of the condition of dependent and orphan children in this country. In his speech of welcome to the delegates among whom were such widely-known philanthropists as Theodore Dreiser of New York, Judge Ben Lindsay of the juvenile court in Denver, Judge Julian Mack of Chicago, Miss Jane Addams of Hull House, and many others taking an active part in social betterment, the President expressed his deep interest in the work of looking out for the children and urged that "there can be no more important subject from the standpoint of the nation than that of taking care of the children."

"Generally debilitated for years. Had sick headaches, lacked ambition, was worn-out and all run-down. Burdock Blood Bitters made me a well woman."—Mrs. Chas. Freitoy, Moosup, Conn.

For Sprains

Sloan's Liniment is the best remedy for sprains and bruises.

It quiets the pain at once, and can be applied to the tenderest part without hurting because it doesn't need to be rubbed—all you have to do is to lay it on lightly. It is a powerful preparation and penetrates instantly—relieves any inflammation and congestion, and reduces the swelling.

Sloan's Liniment

is an excellent antiseptic and germ killer—heals cuts, burns, wounds and contusions, and will draw the poison from sting of poisonous insects.

Price, 25c., 50c., and \$1.00.

SECOND DAY OF COURT.

**Negroes Convicted for Raising Bills
Only Case Tried.**

From Wednesday's Daily Sun:

The second day's work of the U. S.
court was taken up principally with
securing a petit jury, and but one case
was heard when court adjourned
again until this morning at 9 o'clock.Sam Tillman and James Doran, two
negroes who it will be remembered
raised a few \$1 bills to represent \$5,
were tried and convicted, but will not
be sentenced until the completion of
the term of court.These negroes passed two of their
bogus bills here, one on I. H. Mc-
Lendon and the other on Jeff Simons.
The last named soon discovered the
deception and at once hunted up the
guilty parties.The case of the Brooks boys, charg-
ed with counterfeiting, was called, but
Judge Sheppard gave them an op-
portunity of securing counsel and ad-
journed the hearing until today.The grand jury has gotten down to
work and are now investigating sev-
eral cases before them. It is expect-
ed several true bills will be returned
to the court today.

WEDNESDAY'S U. S. COURT.

From This Morning's Daily Sun:

The third day's session of the
United States Court was held yester-
day, and more progress was made
than on the previous days, as the
body has now got down to work.In the afternoon Rena Harris,
a negro woman who had written an
obscene letter and sent it through
the mails, was up on the charge of
sending "obscene statements through
mails." She was tried by jury and

A Clean Man

Outside cleanliness is less than half the battle. A man may
scrub himself a dozen times a day, and still be unclean. Good
health means cleanliness not only outside, but inside. It means
a clean stomach, clean bowels, clean blood, a clean liver, and
new, clean, healthy tissues. The man who is clean in this way
will look it and act it. He will work with energy and think
clean, clear, healthy thoughts.He will never be troubled with liver, lung, stomach or blood
disorders. Dyspepsia and indigestion originate in unclean stom-
achs. Blood diseases are found where there is unclean blood.
Consumption and bronchitis mean unclean lungs.

Dr. Pierce's Golden Medical Discovery

prevents these diseases. It makes a man's insides clean
and healthy. It cleans the digestive organs, makes pure,
clean blood, and clean, healthy flesh.It restores tone to the nervous system, and cures nervous exhaustion and
prostration. It contains no alcohol or habit-forming drugs.
Constipation is the most unclean uncleanliness. Dr. Pierce's Pleasant Pel-
lets cure it. They never gripe. Easy to take as candy.a severe lecture and let her off with
a small fine.Cuff Salit, the negro charged with
robbing the postoffice at Santa Fe,
had the attention of the court in the
afternoon. The jury brought in a
verdict of not guilty.

BEVILLE MARRIED MANY MONTHS

Event Occurred at Savannah, Ga.,
Early in June.The many friends of B. P. Beville
will learn with much surprise of his
marriage, which event occurred in
June of the past year, at Savannah,
Ga., when it was supposed that both
he and his lady friend had gone to
the East Coast on a short visit.The lady was formerly Mrs. Susie
Bullard, who has been a resident of
Gainesville for the past several
months, and for quite a while lived
at the residence of A. E. Davies, but
who is now with her sister, Mrs.
Temple, and together they are keep-
ing house.So well has Mr. Beville guarded
his secret that his most intimate
friends were unaware of it, and no
one of his family were acquainted of
the facts until told so by himself on
Tuesday evening.Rumor has on several occasions had
him married, but he informed the re-
porter on Wednesday that he wanted
to surprise the people generally, and
in this he has succeeded, for the
manner in which he told us was at
first doubted until he came out and
mentioned the time and place that
the wedding occurred.

WAS GIVEN FIFTEEN DAYS.

Mose Malphurs Given Above Sentence
by County Judge Mason.County Judge Mason on Tuesday
gave Mose Malphurs a sentence of
fifteen days in the county jail on a
charge of habitual drunkenness.Mose has been drunk on numerous
occasions and it had become so that
the city could do nothing with him,
and he was finally turned over to the
county for action.Having once before been before the
county judge and warned not to re-
peat the occurrence, he was given fif-
teen days. In sentencing him the
judge informed him that he was light
this time, but would make it more se-
vere in the next case should he still
persist in the habitual use of whiskey.
It is a pitiable case.
